### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

(A) In the title: "METHODS AND APPARATUS TO PREFETCH MEMORY OBJECTS BY PREDICTING PROGRAM STATES BASED ON ENTROPY VALUES".

(B) In the Abstract, line 4, between "state" and ";", insert:  
"based on calculated entropy values".

(C) In claim 55, line 1, replace "1" with "41".

(D) In the specification, paragraph [0003], line 2, "known" should replace "know".

### EXAMINER'S COMMENT

2. Regarding the information disclosure statement of August 7, 2007, most of the non-patent literature documents are not in proper format since they begin with "Exhibit [#] to Declaration of James A. Flight". Nevertheless, each of these references has been considered by the examiner during the review of the Affidavits.

As for the Chinese Office action and its translation, these unpublished documents have been noted by the examiner, but will not be listed on the patent that issues from the present application.

3. Regarding the information disclosure statement of July 6, 2007, the copending applications cited on page 20 of applicant's remarks have been considered by the examiner.

4. Upon further consideration, the previous restriction requirement is withdrawn. However, as of the writing Office action, claims 62-64 have been cancelled and the pending claims have been further amended, so no rejoinder is necessary at this time.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (571) 272-4185. The examiner is generally available between 7:00 am and 7:30 pm, EST, Monday through Wednesday, and between 5:30 am and 4:00 pm on Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Reginald Bragdon, can be reached at (571) 272-4204. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center at 866-217-9197 (toll-free).
